

Student Research Assistant (f/m/d)

Stellenanbieter: Leibniz-Zentrum für Agrarlandschaftsforschung (ZALF) e.V.

The mission of the Leibniz Centre for Agricultural Landscape Research (ZALF) as a nationally and internationally active research institute is to deliver solutions for an ecologically, economically and socially sustainable agriculture – together with society. ZALF is a member of the Leibniz Association and is located in Müncheberg (approx. 35 minutes by regional train from Berlin-Lichtenberg). It also maintains a research station with further locations in Dedelow and Paulinenaue.

The aim is to study the sustainability of irrigated agriculture in Uzbekistan by evaluating the implementation of water-saving technologies and their rebound effects in light of climate change stresses. Specifically, it seeks to systematically review the literature on advanced water-saving technologies and conduct a spatial-temporal analysis of satellite imagery of the study areas.

We seek a motivated Student Research Assistant (WHK) with a background in environmental sciences, agriculture, agricultural economics or natural resource management, and experience in reviewing scientific publications and analysing spatio-temporal data. Skills in creating infographics, animations, policy briefs and short videos are welcome.

We are offering a part time position (up to 60 hrs/month) limited to 6 months with the possibility of extension, starting as soon as possible at our location in Müncheberg as

Student Research Assistant (f/m/d)

23-2025

Your tasks:

- literature analysis, screening and summary of text documents
- creation of graphic materials and presentations
- support in developing policy briefs and writing manuscripts
- producing GIS maps and data analysis
