

(Senior) Business Process Consultant

Stellenanbieter: Volue Energy GmbH

Our mission at Volue is to provide innovative services that are critical to society, unlocking a cleaner, better, and more sustainable future. As a leading technology provider, Volue is proud to be an enabler of the green transition—helping energy companies simplify and optimise their everyday operations.

Volue DeltaXE delivers trusted software solutions for scheduling and logistics within the European power and gas market. Our network information systems are market-leading because we understand regulatory models and tailor our solutions to industry needs.

We are currently expanding our team and are looking for a (**'Senior) Business Process Consultant** who is passionate about technology, sustainability, and making a real-world impact.

What you will be doing to make a difference:

- Partner with clients to review and improve their scheduling and business processes
- Work closely with cross-functional teams to implement our software in a cloud-based environment
- Configure market packages and lead deployment initiatives
- Stay up to date with market developments in the European power and gas sectors
- Analyse and document changes in logistics markets across Europe
- Contribute to solution design for new markets and help adapt to evolving regulations
- Create technical specifications for our development teams
- Plan and facilitate client workshops, training, and presentations
- Mentor colleagues and share your expertise with the wider team

What you need to succeed:

- Experience in European Energy market with power and gas scheduling processes
- A Bachelor's degree (or higher) in business administration, computer science, IT, or a related field
- 3+ years of experience in a business process consulting or similar role
- Strong project management and problem-solving skills
- Excellent communication in English; German language skills are a plus
- A proactive, people-focused approach with strong interpersonal skills
- Confidence working independently and collaboratively within international teams

Reasons to join Volue team and what we offer:

- Large degree of influence in shaping & developing the role further;
- Great colleagues in one of Europe's most exciting green tech companies with

innovative and international work environment;

- Competitive salaries based on your professional experience;
- Flexible working hours and hybrid work;
- Attractive referral program.

This role reports to the Head of the DeltaXE Consulting Team and collaborates closely with our talented consultants across Europe. While we are hiring for our offices in Germany, we are open to considering other Volue locations for the right candidate.

In Volue, we cherish each employee's competence, ideas and personality. Let your skills and talent be a part of our team – and let us leave our mark on the world together!

Company Culture

In Volue, we believe that in order to be a successful company, we need to bring everyone to the table.

We look at diversity as a competitive advantage. A diverse workforce enables better decision-making and creates more value. By inclusion, we refer to the sense of belonging and being part of a community at work. We want the people of Volue to feel welcome, valued and not least encouraged to bring their whole, unique selves to work.

Volue is about people. From staff to client, people are at the center of all our operations, and we always strive for a flat structure where everyone feels included, appreciated and recognized for their individual efforts. Or as we call it "ONE Volue". We hire talented individuals, regardless of gender, race, ethnicity, ancestry, age, disability, sexual orientation, gender identity or expression, cultural background or religious beliefs.
