Senior Investment Manager / Team Lead Transactions (m/f/d) in Renewable Energies

📍 Encavis AG (Hamburg oder Neubiberg bei München) 🏢 Permanent

🕒 Full-time 50% Mobile Office possible

What do we rely on at ENCAVIS? The sun. The wind. And on you.

Welcome to the world of Encavis! At Encavis, everything revolves around the power of the sun, the wind and the more than 200 people who together are helping to shape the energy system of the future. What exactly do we do? We make renewable energy economically viable. Our core business is the acquisition and operation of solar and wind parks throughout Europe. Already today, we are one of the leading group-independent electricity producers in the field of renewable energies. And we are continuing to grow. What does that mean for you? The opportunity to move, shape and change a lot. As part of a multinational team that enjoys helping the energy transition to succeed.

Many paths lead to Encavis - yours could be the start of a remarkable journey.

Bring your expertise and experience to a place where they truly make a difference. At Encavis, you can look forward to a range of diverse responsibilities within a team that values your contribution from day one. What can you expect from us? Varied tasks in a team where you quickly take on a key role in the entire investment process, identify investment opportunities, conduct negotiations, and always keep an eye on optimizing our internal processes – in close cooperation with other departments

Your sunny outlook:

- You lead deal teams for transactions of onshore wind and PV projects as well as battery storage systems (BESS) in Europe from deal sourcing to closing
- You are responsible for comprehensive due diligence processes with internal experts and external consultants
- You are responsible for the financial modeling of wind and solar parks
- You conduct commercial and contract negotiations (purchase agreements, general contractor agreements, project development agreements, operational management agreements, full maintenance agreements, etc.)
- During transactions you manage project financings and power purchase agreements (PPAs) together with internal specialist departments
- You present transaction and investment recommendations to the investment committee, senior management and the supervisory board

- As Team Lead Transactions, you also manage a team of approximately 5-7 investment professionals who independently manage transactions in the areas of onshore wind, PV, and BESS as deal captains
- In your role as Team Lead, you are responsible for the professional and personal development of your team members and support them in their transactions, ensuring that all transactions meet risk-return requirements
- Together with the other team leaders and the investment management team, you ensure the continuous development of the entire investment area and make a noticeable contribution to achieving our goals

We'll get wind of that soon:

- You have completed a degree in business administration or industrial engineering, ideally supplemented by an additional qualification (MBA or CFA)
- You have at least 7 years of extensive transaction experience in the wind, PV, and BESS sectors
- You have a comprehensive network in the field of renewable energies in Europe and want to actively use it to realize transactions
- You have very strong skills and experience in financial modeling of cash flow-based investments
- Your strong communication skills, self-motivation, and flexibility are what set you apart
- You may have initial leadership experience and are experienced in managing demanding teams of professionals working on highly complex tasks
- You are a highly responsible and fully committed employee
- You speak fluent German and English
- You have advanced knowledge in one of the following additional languages: Italian, Spanish, Danish, or Dutch
- You are willing to travel occasionally for your work
