Tech Entrepreneur – Agriculture Robotics (f/m/x) - limited for 2 years

Bewerben

Über uns

📍 Karlsruhe 🏢 Vollzeit 📄 JR_1044820

Are you passionate about driving robotic solutions through artificial intelligence? Join us in innovating agriculture through cutting-edge robotics and AI technology! We are in search of an experienced, motivated, inquisitive, and results-oriented entrepreneur to help us build a robotic system in our newly formed AgTech department. ZEISS started a large strategic initiative to leverage our capabilities to bring robotic solutions to high-end greenhouses, with an initial focus on labor automation. Therefore, we established a dedicated team to drive this effort with a start-up like mindset within ZEISS. As the selected candidate, you will build an internal startup and drive our prototype and product development. You will play a key role in shaping the roadmap, building the team and driving progress with an entrepreneurial spirit. You will work closely with our engineering team to steer our developments with strong focus on USPs and future customers. You will leverage newest developments in robotics, computer vision, simulation, machine learning and AI to bring labor automation to greenhouses. Furthermore, you will be responsible for supporting business development activities and report progress to the top management. We are looking for someone with hands-on mentality and start-up experience that drives in a fast-paced and innovative environment.

Your Role

- Building an internal startup and drive prototype and product development Interact with key internal and external stakeholders and future customers to understand product requirements
- Shape startup like development and business building environment
- Lead and coordinate development teams and ensure strong focus and fast iterations Regularly report progress to top management (incl. executive board)

Sich etwas Neues trauen, über sich hinauswachsen und dabei die Grenzen des Machbaren neu definieren. Genau das ist es, was unsere Mitarbeitenden täglich leben dürfen und sollen. Um mit unseren Innovationen das Tempo vorzugeben und Großartiges zu ermöglichen. Denn hinter jedem erfolgreichen Unternehmen stehen eine ganze Menge faszinierender Menschen. Die Mitarbeitenden von ZEISS arbeiten in einem offenen und modernen Umfeld mit zahlreichen Entwicklungs- und Weiterbildungsmöglichkeiten. Unsere Kultur ist geprägt von Expertenwissen und Teamgeist. All das wird getragen durch die besondere Eigentümerstruktur und das langfristige Ziel der Carl-Zeiss-Stiftung: Wissenschaft und Gesellschaft gemeinsam voranzubringen.

Heute wagen. Morgen begeistern.

Vielfalt ist ein Teil von ZEISS. Wir freuen uns unabhängig von Geschlecht, Nationalität, ethnischer und sozialer

- Define and validate technical specifications and KPIs
- Shape roadmap and long-term product vision while ensuring efficient budget spending
- Build and lead high-performing team including recruiting of top talent to support our efforts
- Foster a culture of continuous improvement and innovation
- Establish collaboration channels with industry partners, startups or research institutions

Herkunft, Religion, Weltanschauung, Behinderung, Alter sowie sexueller Orientierung und Identität auf Ihre Bewerbung.

Jetzt bewerben! In weniger als 10 Minuten.

Your Profile

- A degree with excellent grades in natural sciences, computer sciences, or engineering Background as entrepreneur in a tech start-up (e.g. founder, CTO, lead engineer,...)
- Experience in building high-performing teams and organizations in a fast-paced environment
- Experience in computer vision and robotics a plus
- Proven experience in developing prototypes and rapidly iterating them to achieve a market-ready product
- Ability to translate technical concepts into business value
- Experience in leading cross-disciplinary team and strong communication skills
- Keen interest in investigating complex problems and drive labor automation solutions
- Proficiency in English, both in written and spoken communication, German is a plus

The contract is limited for 2 years.

At ZEISS, we value innovation, collaboration, and a passion for driving change. If you are ready to take on this exciting role and contribute to the future of labor automation solutions in high-end greenhouses, we look forward to receiving your application.

Ihr ZEISS Recruiting Team:
Vanessa Reißle
